

CSE446/598 Assignment 2 Spring 2020 Rubrics

1. Some general guidelines:
 - (1) Please read the assignment document to get familiar to this assignment.
 - (2) Please read through the discussion board for the related questions.
 - (3) **Note:** Before grading this assignment please read PPT 1-6 page 20 and make the changes to your visual studio accordingly to avoid CORS errors. One thing that wasn't mentioned there is that you must create a folder in your C:/ directory. The arguments in step 2 is to use "--user-data-dir="C:/Chrome dev session" --disable-web-security", where "C:/Chrome dev session" should be created before you run the program.
2. Assignment 2 Rubric:
 - (1) [20 pts] Develop a Restful service. Deduct 10 pts if the service is not RESTful.
 - (2) [30 pts] Develop Web applications to consume the RESTful service. They can either implement it in HTML5 or MVC.
 - <1> Make sure the at least one service call is asynchronous, deduct 5 pts if not.
 - <2> Deduct 10 pts if any of the service call falls
